## Lakeland Pencils

**Lakeland Colourthin** is a traditional, round barrelled drawing pencil with a 3.5mm soft strip for easy colouring and blending. Available in 12 bright colours this pencil is ideal for the junior artist.

**Lakeland Painting** can be used dry just like normal colour pencils, but brush over your drawing with a wetted paintbrush and it magically turns into a painting. You can also try wetting the paper first to create deep, strong colour effects or lift the colour directly off the pencil with a wetted paintbrush – tricky but worth it!
