

The Rexel vision is that every office worker can work confidently and productively with distinctive tools that are the intelligent choice for the task.

The GBC vision is that everyone, from the office to home, to school users, can depend on our business machines and supplies to provide outstanding professional results, time after time.

Through leadership and originality the Leitz vision is to be the leading premium brand for the office and beyond by breaking boundaries in quality, design and performance.

The Nobo vision is that every worker can enjoy a clearer, more creative and collaborative environment.

Kensington products are designed to meet the needs of the modern professional whether in the office, at home or on the road.

SHREDDERS

# ARE YOU POPI READY?

Protection Of Personal Information Act

## Did you know?

Identity theft is costing our economy close to R1 billion per year. (Forensics 4 Africa). According to the POPI Act, businesses who do not dispose of client information could face fines of up to R10 million.

## Why Shred?

The POPI Act will have the effect of increasing market demand for shredding. Companies and individuals not already destroying unwanted confidential information will begin to do so. Those in the habit and discipline of shredding will have cause to consider more secure levels of destruction. In the UK for example the Data Protection Act changed market demand from predominantly straight cut shredding to predominantly cross cut & micro cut shredding in the space of two to three years.

## What is POPI/POPIA?

The Protection Of Personal Information Act (POPI), gazetted on the 26 November 2013, it came into effect 1 July 2020 and calls for businesses and organisations to take appropriate action with regards to the acquisition, storage and destruction of personal information. It requires that policies and practices are put in place to prevent the reconstruction of discarded personal information in an intelligible form.

## Why Autofeed shredding?

- **PEOPLE FRIENDLY**  
Spend 98% less time shredding. Simply stack, shut and walk away!\* Auto feed shredding increases productivity.
- **POCKET FRIENDLY**  
Auto feed shredding saves time and money. Intelligent power save feature limits power usage. Offsite solutions are costly and can place an administrative load on employees.
- **SECURITY FRIENDLY**  
Onsite shredding eliminates the "lost in transit" risk, giving better control over document destruction. Rest assured your sensitive info cannot be reconstructed once shredded.
- **CHOICE FRIENDLY**  
We offer a range of **16 Rexel plus 4 Leitz AutoFeed** shredders that can shred from 45 to 750 sheets automatically. Available in cross cut and micro cut.

## What does it mean for you?

- You will need higher levels of security than straight cut (P2) shredders provide.
- **Rexel Optimum AutoFeed Shredders** and **Leitz AutoFeed Shredders** are available in security levels P4 and P5 and are therefore an ideal POPI shredding solution.
- **Rexel and Leitz AutoFeed Shredders** offer the latest innovative technology backed by reliable after sales service.

JOB WELL DONE

# WHEN HYGIENE AND SAFETY ARE IMPORTANT - LAMINATE

iLAM Home Office A4

Available in 4 striking colours

iLAM Touch & Turbo Pro

Warm up 1 min • 3 year guarantee • Professional use

JOB WELL DONE

## Large Office **FREQUENT** Use

### Go to the limits!

The iLAM Touch series are fully automatic A3 high speed laminators. These premium machines feature smart sensor technology. They recognise paper thickness and adjusts their speed accordingly. One minute warm up time. Perfect for prolonged professional use. Active anti-jam technology. 6 roller for added speed and quality. Includes free starter kit.

### Leitz iLAM Touch A3

344040 (74744000)

- Maximum Micron Pouch: 500 micron
- Speed mm/min: 1000
- Warm up time: 1 min
- Max laminating width: 320mm
- 6 Rollers

### Leitz iLAM Touch Turbo A3

344045 (75200000)

- For intensive professional use
- With unique easy feed system
- Maximum Micron Pouch: 500 micron
- Speed mm/min: 1500
- Warm up time: 1 min
- Max laminating width: 320mm
- 6 Rollers

### Leitz iLAM Touch Turbo Pro A3

344050 (75190000)

- Maximum Micron Pouch: 500 micron
- Speed mm/min: 2000
- Warm up time: 1 min
- Max laminating width: 320mm
- 6 Rollers

- Speed mm/min: 300
- Warm up time: 3 min
- Max laminating width: 215mm

# Select the Right Laminator and Pouch

Make sure that your important documents are protected, preserved and enhanced. Laminating not only provides protection, but also adds structure to the document. Select the micron thickness to match the rigidity required.

## Roll Laminating

### GBC Rollseal Ultima 35 EzeLoad A3

340060 (4410020)

- Maximum Micron Pouch: 500 micron
- Speed mm/min: 1000
- Approx. Lamination time (A4): 15 sec
- Variable temperature control
- Approx. 4 x faster lamination process than with traditional office pouch laminators
- Impossible to load films in error
- Laminates all formats up to 305mm width
- Warm up time: 90sec

A3

### GBC Ultima 65 Roll Laminator A1

340062 (1712000)

With the Ultima 65 laminator, it's easy to protect and preserve your most important printed tools. The EZload film system makes loading fool-proof, while the pivoting feed table provides easy access for film changing. AutoGrip shafts make adding and removing standard film a breeze. All together, these features shorten film loading time by 50%. EZ load film rolls are colour coded for easy and accurate loading every time. Pivoting feed table eliminates the need to remove the table while loading.

- Max film width: 681 mm
- Warm-up time: 20 minutes
- Speed: 600-3000mm/min
- Max doc thickness: 3 mm
- Warm up time: 90sec

Binding doesn't get any simpler!

The Quickstep process was designed to simplify the binding process and remove the frustrations highlighted by consumer feedback. By using the Quickstep colour coding on both the machines and ProCombs you are guided through each step clearly, creating error-free fast binding.

- Choose** your comb size depending on how many pages you need to bind
- Align\*** the arrow on the comb to the machine, never make an error loading a comb again!
- Bind** by opening the comb to the optimum point for quick loading and finishing of your document

# Select the Right Binding Style

Binding a document says something about you - whether it's that all important sales proposal for a customer, a securely bound legal document, or a regularly used training document. Select from the GBC range of binding styles and covers to make sure it represents you. You only get one chance to make a first impression!

Which binding style?

## CombBind®

The classic way to bind.

- 21 hole punch pattern allows you to select spines from unique GBC ProCombs, standard combs or unique Zip comb finish
- ProCombs are designed to use with QuickStep enabled binders - for optimal efficiency in binding
- Zipcombs - easily open and replace pages. Provides a professional, modern finish
- All comb styles are great for photocopying and page turning

## WireBind

The professional way to bind.

- Durable, robust metal wire spines with either 34 or 21 loops (designed for use on Multifunctional binders)
- Providing a secure binding wire with 360 degree turning capability - perfect if photocopying is required
- Ideal for documents which require a secure, non-editable closure

## ClickBind™

The simple and editable way to bind.

- Click provides a modern finish to any document with the added benefit of easy page addition or removal when required
- Maximum impression with minimal effort
- Click provides 360 degree turning and is ideal for photocopying

## ThermaBind™

The "Published Look" way to bind.

- Pages are held in place with adhesive inside the spine of the covers
- Front and back covers are supplied as one item - unique for ThermaBind
- Flat stack multiple copies and ideal for mailing

# Tripod, Wall & Electric Screens

## Professional Tripod Screens

The brilliant matt white surface with black border provides a sharp, detailed image that can be easily viewed by everyone in the audience. The screen can be easily retracted into its housing to protect from damage.

- An overhead arm tilts the screen towards the audience
- Ideal for digital projectors or OHP
- 4:3 Tripod Screen

Rexel Code	On Pack Code	Size
190325	1902395	1500 x 1138mm
190335	1902396	1750 x 1325mm
190340	1902397	2000 x 1513mm

## Professional Wall Screens

The brilliant matt white surface provides a sharp, detailed image. The screen can be easily retracted into its housing to protect from damage. With optional extension brackets the screen can be mounted over a whiteboard or tilted towards the audience.

- 4:3 Wall Screen
- Can be mounted to either a wall or ceiling\*

Rexel Code	On Pack Code	Size
190300	1902391	1500 x 1138mm
190305	1902392	1750 x 1325mm
190310	1902393	2000 x 1513mm
190315	1902394	2400 x 1813mm
190320	1902398	Brackets

\*No fixing kit supplied, please use appropriate fixings for wall/ceiling type.

## Electric Screens

Perfect for creating a professional look and feel to your presentation. Ideally suited for use in meeting rooms, board rooms and conference rooms. Simply use the remote control to lower the screen. Affordable design is easy to install – simply plug in and use – no professional wiring required. The brilliant matt white surface provides a brilliantly sharp image.

- Whisper quiet operation
- Can be mounted either to a wall or ceiling\*
- Supplied with remote control, range up to 10m

Rexel Code	On Pack Code	Size (mm)
190150	1901972	1440 x 1920
190151	1901973	1800 x 2400

\*No fixing kit supplied, please use appropriate fixings for wall/ceiling type.

## Portable Floorstanding Screen

Carry case turns into a full-sized projection screen in less than 5seconds. The lightweight aluminium design is ideal for the travelling presenter or for use in meeting rooms. The pressurised air system behind screen gives it maximum stability and requires no fastening.

- Brilliant matt white projection screen surface for high quality colour projection
- Black border provides a sharp,detailed image

Rexel Code	On Pack Code	Size
190146	1901956	1620 x 1220mm

## Clip Frames

Clip frames open at the front so pictures can be easily changed without removing the frame from wall. Ideal for frequently changed items such as menus, staff notices, special offers etc. All four frame edges lift up, pictures protected with a PVC sheet. Anti-glare PVC cover protects posters from dust and dirt. Weather-seal protects posters if used outside. Supplied with wall fixings.
