

# Fusion Plus 7000L A3 Laminator

## Large Office Laminator

### Professional quality, accelerated productivity

Super-fast and easy to use, ideal for heavy use in the busy office or education environment. Next generation intelligent input sensors gauge the precise thickness of the pouch and contents and automatically adjusts throughput speed, with manual over-ride for non-standard media. Laminate using light-weight 2x75 up to heavy weight 2x250 micron thermal pouches. The result is a flawless finish.

## Features & Benefits

- High speed warm up of 1 minute
- Laminates an A4 sheet in less than 13 seconds
- Auto setting for easy lamination
- Next generation Intelligent input sensors automatically adjust speed for a flawless finish
- Manual over-ride for non-standard media
- Intelligent auto reverse prevents pouch misfeeds or jams
- 6-roller technology for ultra fast high quality lamination

Product Code  
**4402133EU**

## Technical Specifications

Max Document Size	A3
Pouch Thickness	75 mic to 250 mic
Warm Up Time	1 minute
Speed	1,400mm / min
Auto Heat Setting	Yes
Manual Heat Settings	Yes
Cold Lamination Setting	Yes
Ready Light	Yes

## Weights & Measures

### Machine

Depth	235mm
Width	578mm
Height	121mm
Weight	8.1kg

### Retail Pack

Quantity	1
Depth	320mm
Width	660mm
Height	220mm
Weight	10.0kg
Barcode	5028252515535
