Setting up

- 1 Attach the handle to the machine on the left side and push in firmly to secure.
- 2 Turn the power switch on (Located on right side of machine.) Allow 30 seconds for motor to reach full speed. In cold weather, allow machine to reach room temperature before turning power on (fig. 1).
- 3 Machine reset button: If the machine should require resetting, please wait 1 min before pushing the reset button

Punching

- 1 Put sheets flush into the machine (use the side guide to adjust the position of the document before punching) (fig. 2).
- 2 Step on the foot pedal to punch

Note: The black knob on the right side of the machine is used to select the margin depth. This feature is ideal for thicker documents that require wider margins for easy page turning and more secure binding.

Maintenance

Always remember to regularly empty the drawer of clippings (fig. 9).
