ARE YOU **POPI** READY?

Protection Of Personal Information Act

SHREDDERS

Did you know?

Identity theft is costing our economy close to R1 billion per year. (Forensics 4 Africa). According to the POPI Act, businesses who do not dispose of client information could face fines of up to R10 million.

What is POPI/POPIA?

The **Protection Of Personal Information Act (POPI)** gazetted on the 26 November 2013, and came into effect 1 July 2020. It calls for businesses and organisations to take appropriate action regarding the acquisition, storage and destruction of personal information. It requires that policies and practices are put in place to prevent the reconstruction of discarded personal information in an intelligible form.

Why Shred?

The **POPI Act** will have the effect of increasing market demand for shredding. Companies and individuals not already destroying unwanted confidential information will begin to do so. Those in the habit and discipline of shredding will have cause to consider more secure levels of destruction. In the EU for example the GDPR Act changed market demand from predominantly straight cut shredding to predominantly cross cut & micro cut shredding in the space of two to three years.

Why Autofeed shredding?

People Friendly

Spend 98% less time shredding. Simply stack, shut and walk away! Auto feed shredding increases productivity.

Pocket Friendly

Auto feed shredding saves time and money. Intelligent power save feature limits power usage. Offsite solutions are costly and can place an administrative load on employees.

Security Friendly

Onsite shredding eliminates the "lost in transit" risk, giving better control over document destruction. Rest assured your sensitive info cannot be reconstructed once shredded.

Choice Friendly

We offer a range of **13 Rexel** plus **4 Leitz** **AutoFeed** shredders that can shred from 45 to 750 sheets automatically. Available in cross cut and micro cut versions.

What does it mean for you?

- You will need higher levels of security than straight cut (P2) shredders provide.
- **Rexel Optimum AutoFeed Shredders** and **Leitz AutoFeed Shredders** are available in security levels P4 and P5 and are therefore an ideal **POPI** shredding solution.
- **Rexel and Leitz AutoFeed Shredders** offer the latest innovative technology backed by reliable after sales service.

THE ULTIMATE PORTFOLIO OF HOME & OFFICE SHREDDERS

How to choose a shredder

MANUAL FEED OR AUTO FEED	Manual Feed Shredding requires that you stand and feed the machine Auto Feed Shredding. Stack, Shut and Walk Away
DETERMINE YOUR SHREDDING NEEDS 	Volume: How many sheets of paper do you need to shred regularly? For personal use, a smaller capacity shredder may suffice. For office use, especially in larger organizations, a high-capacity shredder is more appropriate. Frequency: Consider how often you will use the shredder. Continuous use requires a machine with a higher duty cycle and better cooling features.
SECURITY LEVEL 	P-2: Strip Cut Suitable for general documents that are not highly confidential. P-3 to P-4: Cross Cut Good for confidential documents, offering cross-cut shredding. P-5: Micro Cut Ideal for highly confidential documents, providing micro-cut shredding.
SHREDDER TYPE 	Strip-Cut: P-2 Cuts paper into long strips. Suitable for low-security needs and larger volumes of paper. Cuts 1 x A4 page into 36 pieces. Cross-Cut: P-3 & P-4 Cuts paper into small pieces. Cuts 1 x A4 page into 400 pieces. Micro-Cut: P5 Offers the highest level of security by cutting paper into tiny particles. Cuts 1 x A4 page into 2000 pieces.
SHEET CAPACITY 	Look for the number of sheets a shredder can handle per pass. This can range from 5 sheets for personal shredders to 750 sheets for departmental office shredders.
RUN TIME AND COOL DOWN 	Continuous shredders can operate without interruption, while others need a cool-down period after a certain period of use. For high-volume shredding, choose a model with a long run time and a short cool-down period or continuous run time.
ADDITIONAL FEATURES 	Jam Prevention: Anti-jam technology can help prevent frustrating paper jams. Safety Features: Look for features like auto shut-off, pin lock for extra security and confidentiality. Noise Level: Some shredders operate more quietly than others, which is important in a shared office environment. Waste Bin Capacity: Larger bins require less frequent emptying, which is convenient for high-volume shredding. Shredding Capabilities: Some shredders can also handle CDs, DVDs, credit cards and staples.
BRAND AND WARRANTY 	SHRED WITH CONFIDENCE Choose Rexel and Leitz for quality and reliability. Consider the warranty offered, as it is an indicator of the shredder's durability and the manufacturer's confidence in their product.
EXAMPLE MODELS 	MANUAL SHREDDING OR AUTOFEED SHREDDING Personal Use: Rexel Secure X6 (cross-cut, 6 sheets, 3-minute run time) Office: Leitz Optimax (micro-cut, 10 sheets, anti-jam technology, 120-minute run time) Large Office: Optimum AutoFeed+ 750X (cross-cut, 750 sheets automatically, Anti-jam technology, Pin lock, 4-hour run time)

Leitz Optimax Office Shredder

A new spin on paper shredding

Offers 33% more sheets in the bin, a new user interface, illuminated when shredding

33% MORE CAPACITY

2
Year
Warranty

LEITZ®

- Less interaction and less mess when emptying
- Round back design allowing bin to rotate
- Allows placement anywhere in office even in corners
- Shreds up to 10 sheets 70-80 gsm
- Security level: Micro cut P5 2x15mm
- Bin capacity: 35L pull out bin
- Touch control
- Quiet shredding 58 dBA
- Minimal disruption in busy offices
- Jam prevention technology
- ECO sleep mode after 60 mins
- Run time: 120 minutes
- Castor wheels

Wide Entry Shredders | Large Office

Extra large wide entry cross cut shredder.
High capacity and performance. Engineered for bulk shredding

Wide entry shredders are designed to handle larger paper sizes and higher volumes of paper compared to standard shredders. They are typically used in offices or environments where documents like A3-sized paper or large volumes of materials need to be shredded.

Wider Paper Entry: The shredder's entry width can accommodate larger paper sizes, often up to A3 size (297 x 420 mm). This is ideal for blueprints, posters, or other large documents.

High Volume Capacity: These shredders can often handle more sheets per pass and have a larger bin capacity, allowing for less frequent emptying.

Continuous Duty Motors: Many wide entry shredders are equipped with continuous duty motors for non-stop shredding, suitable for high-volume shredding in larger offices.

Shredder Oil & Shredder Bags

Shredder Oil

Synthetic Shredder Oil 250ml

- Apply Lubricant from side to side across scrap sheets of paper.
- Shred the lubricated sheets.
- Reverse the Shredder to distribute lubricant through the cutter.

Rexel recommends that the shredder is lubricated after the bin has been emptied three times and again every third bin emptying event thereafter.

300106

How to oil your shredder using shredder oil MANUAL FEED SHREDDER

1. Switch the Shredder off. Ensure that there is some shredded paper in the bin.
2. Spread some shredder oil onto two A4 pieces of office paper. Place another two A4 sheets on top of the two oiled sheets.
3. Switch the Shredder back on and feed the four sheets through to the cutting blades as you would normally do when shredding.
4. Once the sheets have been shredded, press the reverse button for ten seconds to spread the oil evenly across the blades.

Rexel Shredder Oil Sheets

- Easiest way to oil your shredder

How to oil your shredder using oil sheets AUTO FEED SHREDDER

1. Switch the Shredder off. Ensure that there is some shredded paper in the bin.
2. Open the top lid. Feed a Rexel Oil Sheet (**Invoice Code 300099 On Pack Code 2101948**) into the gap between the rollers. Close the top lid.
3. Switch the Shredder back on and the oil sheet will drawn by the rollers through to the cutting blades.
4. Once the oil sheet has been shredded, press the reverse button for ten seconds to spread the oil evenly across the blades.

Options for the Lubrication of the Shredder

1. Rexel Oil Sheets which are available in packs of 12 under the code 2101948. Invoice code **300099**
2. Leitz Oil Sheets which are available in packs of 12 under the code 80070000. Invoice code **300101**
3. Rexel Shredder Oil available in a 250ml bottle and sold under the invoice code **300105**
4. Rexel Shredder Oil available in a 1Lt bottle and sold under the invoice code **300106**

Rexel accepts no liability for product performance or safety when other types of lubricants are used on any part(s) of Rexel or Leitz Shredders.

Shredder Bags – Recycled Plastic

- Ensure efficient waste disposal with Rexel Recycled Plastic Shredder Bag
- Made from eco-friendly recycled plastic, these durable bags are strong enough to handle high volumes of shredded paper
- Pack of 25

GBC Foton Film Cartridge

NEW Refillable Film Cartridges

Foton 30 is now even more productive with easy load refillable cartridges which reduce costs and improve efficiency. Each refillable cartridge is provided with a lamination roll. To refill: simply remove empty cartridge, open the cartridge levers, insert a replacement roll and close the levers.

Document Binding Solutions: Binding Style & Cover Choice

Binding a document says something about you - whether it's that all important sales proposal for a customer, a securely bound legal document, or a regularly used training document. Select from the GBC range of binding styles and covers to make sure it represents you. You only get one chance to make a first impression!

Which binding style?

CombBind®

The classic way to bind.

- 21 hole punch pattern allows you to select spines from GBC, standard combs
- All comb styles are great for photocopying and page turning
- CombBind elements are available in sizes 6mm to 51mm

WireBind

The professional way to bind.

- Durable, robust metal wire spines with either 34 or 21 loops (designed for use on Multifunctional binders)
- Providing a secure binding wire with 360 degree turning capability - perfect if photocopying is required
- Ideal for documents which require a secure, non-editable closure
- WireBind elements are available in sizes 6mm to 14mm

ClickBind™

The simple and editable way to bind.

- Click provides a modern finish to any document with the added benefit of easy page addition or removal when required
- Maximum impression with minimal effort
- Click provides 360 degree turning and is ideal for photocopying
- ClickBind elements are available in sizes 8mm to 16mm

ThermaBind™

The "Published Look" way to bind.

- Pages are held in place with adhesive inside the spine of the covers
- Front and back covers are supplied as one item - unique for ThermaBind
- Flat stack multiple copies and ideal for mailing

What is the difference between a Paper Trimmer and a Guillotine?

A Paper Trimmer has a blade on a track that you slide up and down your paper to trim it.

A Guillotine has a handle with a blade that pivots up and down to cut paper.

Wide Format Trimmers

Rotary Trimmer KW 3022 1300

Kensington®

Comfort
Made Easy

NECK

BACK

WRIST

FEET

Kensington wants to help you be comfortable at work to continue doing the things you love outside of work. That means we need to be comfortable - and we need movement. Research shows that people are healthier and happier when they're more active. Kensington ergonomic products such as monitor arms, sit/stand desks and footrests adapt to changing comfort levels throughout the day. Whether thinking on your feet or comfortably seated, we've got the perfect wellness solution fit for you.
